

special open-end
wrench

If you are unsure about
installing the glass,
call a professional!

Installation Instructions

1. Use a **soft surface** for installation to avoid damaging the glass or body.
2. Place the **threaded cover** on the top.
3. Position the **glass plate** carefully.
4. Fit the **metal body** underneath.
5. Assemble in the following order:
rubber washer → metal washer → nut.

6. Tighten the nuts gently using the supplied open-end wrench.

⚠ Do not overtighten – the glass may break!

7. Screw in the feet.

8. Turn the table over carefully – this must always be done by two people.

CAUTION:

Never lift or move the table by holding the glass top.
If you are unsure about the glass installation, please contact a professional.
